

American Treasure Hunters for Schools

Story first: Present-day adventurous hunts for treasure from American history using codes, puzzles, action-packed field work, and gathering of historical evidence in an exploration and celebration of the depth and breadth of our fascinating nation.

SEVEN-BOOK SERIES PREVIEW

Low-risk starting point: \$59.95 Books 1–3 hardcover bundle. Seven titles will also be available in trade paperback during 2027.

High-school seniors Ben Prescott, Porter Rockwell, and Latch McRae combine research, ciphers, salvage skills, and high-tech authentic field gear to pursue treasure linked to real historical events. Each mission stands alone; the recurring team supplies continuity.

Why students may keep reading

1. A fresh historical mystery, physical objective, and trail of clues in every standalone mission.
2. Three capable young men who research, communicate, improvise, build, dive, drive, and act under pressure.
3. Fast chapters, cliffhangers, humor, ciphers, maps, tools, rival hunters, and place-based history.

What educators can do with the story

4. Use the ATH Back Pages in Books to separate documented history, inference, family lore, and invented plot—and require evidence for each judgment.
5. Map a pursuit, authenticate an artifact, decode a cipher, or research a contested person or event.
6. Discuss courage, loyalty, stewardship, justice, American tradition, and character judgment.

CHRISTIAN AND CLASSICAL USE

Family and faith are ordinary parts of life; the recurring cast includes Latter-day Saint, Catholic, Baptist, and Presbyterian contexts. Friendship, courage, competence, and stewardship are emphasized. Classroom approaches include historical inquiry, interpretation of American history, showing judgment and embodying the virtues of courage, loyalty, and stewardship in a variety of situations.
